

THOMSON REUTERS

Thomson Reuters Extends Elektron with StreamBase CEP Technology

"The combination of StreamBase's market leading CEP engine together with Elektron will provide a platform for us to deliver flexible and sophisticated solutions to our customers faster and more efficiently." Mike Powell, Global Head of Enterprise Real-Time Solutions, Thomson Reuters." — *Mike Powell, Global Head of Enterprise Real-Time Solutions, Thomson Reuters*

BM&FBOVESPA

The New Exchange

BM&FBOVESPA Selects StreamBase CEP for Enterprise-Wide Deployment

"StreamBase CEP will be incorporated into our multi-asset trading infrastructure that can be accessed through the CME Globex electronic trading platform. StreamBase's high-performance multi-threaded event server and visual development studio enable us to rapidly roll out sophisticated models that react to changing market conditions." — *Marcio Castro, Chief Technology Officer, BM&FBOVESPA*

CME Group

A CME/Chicago Board of Trade/NYMEX Company

Best Real-Time Market Data Initiative

StreamBase Selected by CME Group to Analyze Real-Time Streaming Data

"CME Group is one of the most demanding technology environments in the world, processing millions of orders a day in milliseconds, and disseminating market data in a reliable and low latency manner is critical to our customers. StreamBase's high-performance multi-threaded server and easy to use modeling tools met our requirements and will enable the exchange to quickly react to the ever changing needs of our customers." — *Steve Goldman, Director, Enterprise Architecture, CME Group*

SUNGARD®

SunGard Selects StreamBase to Enhance Its OMS and Execution Services Infrastructure

"The speed and flexibility of StreamBase's platform will help us efficiently enhance our systems and further streamline every point of the trade lifecycle for our customers." — *Raj Mahajan, President, SunGard's Trading Business*

BlueCrest
BlueCrest Capital Management LLP

Best Real-Time Market Data Initiative

BlueCrest Implements Innovative Real-Time Market Data Management Infrastructure

"The combination of StreamBase and Vertica enables us to get a low-latency, aggregated view of 'everything that ticks' in the increasingly complicated, fragmented, high-speed financial markets. Their joint solution helps us get to market quickly and, more importantly, change our system quickly in response to new opportunities. We save weeks to months with each market or analytic we add, and that helps us capture trading advantage while it's most lucrative. It enables our 24-hour global trading operations, and helps us optimize our market data licensing, all at once." — *Justo Ruiz-Ferrer, Head of Trading Strategy Systems and Quantitative Development, BlueCrest Capital Management LLP.*

City Index Selects StreamBase for Options Pricing and Monitoring

"Our team found that StreamBase combines the best of both worlds – we can deliver just as quickly as with an off the shelf product, but with StreamBase we have full control over the functionality and the flexibility to extend its use into other areas of our production environment. Our choice was cemented by the excellent performance of the StreamBase engine. This, together with the time to market and control that StreamBase provides, is a winning formula." — *Toby Young, Chief Technology Officer, City Index*

CMC Markets Plc Selects StreamBase

"StreamBase was selected because it met all our requirements for a high-performance CEP platform for FX. Our requirement for a mature CEP platform that can connect to multiple FX market data sources, handle tens of thousands of events per second and at the same time offer high availability was addressed by StreamBase." — *Asif Adatia, Chief Information Officer, CMC Markets Plc.*

Kosmos Selects StreamBase for High Frequency Trading System

"After a few months of testing StreamBase was the clear winner. The Kosmos team consists of experienced Equity and FX traders who demand rapid time to market for their trading strategies and quant developers who need to be able to respond to those demands in real-time. We believe that StreamBase's flexible visual development environment, multi-threaded scalable CEP servers and wide selection of Equities and FX connectivity options empowers our developers to keep up with the demands of an ever changing market." — *Alberto Araujo, COO, Kosmos Asset Management*

PhaseCapital Selects StreamBase to Complete New High Frequency Trading System

"In our evaluation of CEP, StreamBase came out on top. We're building a robust trading system using a platform approach – we are not just building an application. In this context, StreamBase delivers a combination of high performance, high availability, and scalability via its multi-threaded server, and solid abstractions in the development tools that allow us to rapidly implement our trading strategies and market data management schemes." — *Eric Pritchett, Chief Executive Officer, PhaseCapital*

GAIN Partners with StreamBase to Extend FX ECN for High Frequency Trading Algos

"With StreamBase, we have a mutually beneficial partnership where the combined offering delivers a powerful solution on which our customers can develop and execute trading strategies with minimal effort. As a customer of StreamBase, we are also proving out the value of their technology internally. Leveraging their development environment, we are delivering business solutions in a fraction of the time it would have taken with traditional programming languages." — *Andrew Haines, Chief Information Officer, GAIN Capital*

BNY ConvergeEx Group Deploys StreamBase for U.S. Trading Operations

"There are three primary reasons StreamBase impresses me. First, time to market is key in financial services, and the StreamBase Studio™ environment allows us to get to market quickly with very little coding. Second, StreamBase meets the high-performance demands of Wall Street – it can handle large amounts of data, quickly. Finally, its multi-threaded architecture makes it very efficient – so StreamBase scales smoothly as the volumes in the market grow – it helps future-proof our trading infrastructure." — *Joseph Weisbord, Managing Director, BNY ConvergeEx Group*
